FACTURANDO SIMPLE, Mar del plata: Product Owner / Full stack developer

NOV 2018-JUL 2019

API REST: Simplify the communication with AFIP SOAP web services. Was developed using PHP + SLIM + PostgreSQL.

UI: Was developed using Vue + Router + Vuex + Vuetify + PWA Support + TypeScript

Both projects are running on AWS using: RDS, EC2, Route53, Certificate Manager, Load Balancers.

Solution: Facturando Simple is a multi-platform web application capable of working on any device (PC, mobile, tablet) with any operating system (Android, IOS, Windows, Linux, MacOS) for the issuance of electronic vouchers (AFIP Argentina), vouchers management, of products and customers. In short, the solution is to issue an electronic voucher in 3 simple steps and send the voucher to the customer by email automatically from any device in addition to having the possibility of printing and reprinting a voucher issued.

Facturando Simple was acquired by Todo Insumos (Argentinian computer wholesale distributor) in Sep 2019.
