Summary

Hi, welcome on my LinkedIn's profile!

I'm Krystian, QA engineer, student and enthusiast of sport - especially running :) I enjoy solving problems, discovering new things and... destroying them! That's why I'm so interested in testing different things, especially web and mobile apps. Also I like numbers... that's why I'm studying Finances and Accounting and I'm fighting on financial markets (mostly on cryptocurrencies and stocks).

Experience
