

Yano Sho

Smart Contract Developer

Ontario, Canada

shoyano.soft@gmail.com

TECHNICAL SKILLS

- Blockchain
- DeFi
- NFT
- OpenZeppelin
- Hardhat
- Truffle
- Solidity
- React.js
- Ethers.js

SOFT SKILLS

- Problem-solving
- Teamwork
- Communication
- Leadership
- Creativity

COURSES

- Computer engineering, 2013

SUMMARY

Yano has 5+ years of professional experience and started coding from the college. And he started contributing on blockchain projects from early 2017. Core expertise are DeFi & NFT platform, blockchain core development, security management, distributed applications like wallets and blockchain games. He also has strong background in full-stack web and desktop software development, especially user- friendly applications.

PROFESSIONAL EXPERIENCE

Latoken

Senior Solidity Developer

(07 / 2021 – 03 / 2022)

- Participated in Lachain project, improved functionality of solidity compiler.
- Built NFT marketplace, crosschain bridge between BTC/ETH and Lachain.
